Attachment to Advisory Action

This office action is in response to after-final request for reconsideration on August 09, 2004. Original application contained Claims 1-20. Applicant previously added Claims 20-26. Therefore, presently pending claims are 1-26.

Applicant's arguments filed August 09, 2004 have been fully considered but they are not persuasive because of following reasons.

When reviewing a 37 CFR 1.131 affidavit or declaration, the examiner must consider all of the evidence presented in its entirety, including the affidavits or declarations and all accompanying exhibits, records and "notes." An accompanying exhibit need not support all claimed limitations, provided that any missing limitation is supported by the declaration itself. Ex parte Ovshinsky, 10 USPQ2d 1075 (Bd. Pat. App. & Inter. 1989).

The affidavit or declaration and exhibits must clearly explain which facts or data applicant is relying on to show completion of his or her invention prior to the particular date.

Vague and general statements in broad terms about what the exhibits describe along with a general assertion that the exhibits describe a reduction to practice "amounts essentially to mere pleading, unsupported by proof or a showing of facts" and, thus, does not satisfy the requirements of 37 CFR 1.131(b). In re Borkowski, 505 F.2d 713, 184 USPQ 29 (CCPA 1974).

In previous office action examiner emphasized the blank date(s) in version control history of documents provided by the applicant, because examiner was trying to establish a relevance

Art Unit: 2131

between applicant declaration of released for sale and claimed embodiments. Examiner needs a clear mapping of claimed embodiments in the documents provided. Simply stating the fact that Claim 1, and 13 recites "A directory-enabled network device" which applicant claimed is disclosed in Exhibits-I is not sufficient enough establishing the fact that device was existed, adequately operational and released for sale. Applicant not claiming "A directory-enabled network device" only, but also claiming and trying to solve the drawbacks of current directory services, as mentioned in specification (Page 6-7) and claimed embodiments. Examiner specifically needs description pointing to the portion of the Exhibit document(s) for claimed embodiments.

Applicant must give a clear explanation of the exhibits pointing out exactly what facts are established and relied on by applicant. 505 F.2d at 718-19, 184 USPQ at 33. See also In re Harry, 333 F.2d 920, 142 USPQ 164 (CCPA 1964) (Affidavit "asserts that facts exist but does not tell what they are or when they occurred.").

Therefore, applicants clearly have failed to explicitly identify specific claim limitations, which would define a patentable distinction over prior arts. The examiner asserts that cited prior arts do teach or suggest the subject matter as broadly recited in independent claims 1, 11, 13, 15-16, 21-22, 25 and 26. Dependent claims 2-10, 12, 14, 17-20, and 23-24 are also rejected at least by virtue of their dependency on independent claims and by other reason set forth in previous office action (Paper No. 8). Accordingly, rejections for claims 1-26 are respectfully maintained.
